In the ring of 1848 he took a severe cold, and after eight weeks of severe suffering the disease settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physicism, and discharged most profusely; after that no less than eleven when formed on the leg and foot at one time. We had fire different Physicians, but none relieved him much and the last winter found him so emaciated and lor that he was unable to leave his bed suffering the most excruciating pain. During this time the bone had become so much affected that piece after peice cane out, of which he has now more than twenty-fivepreserved in a bottle, varying from one half to one and a half inches in length. The value of this Medicine is now widely known and every day the field of its usefulness is extended It is approved, and highly recommended by Physicians, admitted to be the most powerful and searching preparation from the root, that has ever been employed in medical practice. Its operation extends to the remotest parts of the system, and consists in removing diseased action in the absorbing and secreting organs. In man, Nature seidom effects, unassisted, the cure of any virulent disease, but requires the aid of a stimulant, alterative, or antiseptic redicine. In diseases of the skin and flesh, a comsination of these three classes of medicinal agents is highly desirable. All these properties are combined in this preparation; and instead of operating successively upon the system, as they must necessarily do when taken separately, they operate simuitaneous this form. Its tonic property strengthens the digestion, and improves the appetite.-Its alterative tendency carries off the accumulations of morbid "HILDRENS' HOSIERY AND SHOES of all matter, and its antiseptic influence neutralizes the virus, by which the disease is tostered. 23-8m
